User manual AXIWI® 6 persons two-way (duplex) communication

Version: Submaster

To use AXIWI in the 'Submaster mode', the unit has to contain 'Submaster' software. Please check this before you are using this manual.

With this software, you have to setup 1 unit as a master. The other units can be free of choice. You can set up 3 other submasters or 2 submasters and 1 follower for someone who speaks just occasionally.

Set up as Master

1. Push and hold the volume up **+** button;
2. Then push the 'on/off' button (approx. 1-2 seconds) while pushing the volume up **+** button at the same time. The colour of the LED-light indicates the channel. The AXIWI unit is set up in the 'Master' mode. The LED light will light up constantly.

Set up as Submaster

1. Push and hold the volume down **-** button.
2. Then push the 'on/off' button (approx. 1-2 seconds) while pushing the volume up **-** button at the same time.
3. The AXIWI unit is set up as submaster. The LED-light of the chosen channel will flash quickly. The LED light will flash quicker then in the 'Follower' mode.

Set up as Follower

1. Push the 'on /off' button (at least 2 sec.); The LED-light of the chosen channel will flash.
2. With the 'S' button on the front, the speaking function can be activated and deactivated. Press the 'S' button briefly to activate (and again) to deactivate the speaking function.
3. When the speaking function is activated, the LED-light of the chosen channel will flash, the other LED-lights will light up constantly.

Change the channel

When the AXIWI is 'on' (as a Master or Follower) you can change the channel:
1. Push the volume up **+** button and hold it.
2. Push the **'S'** button briefly at the same time. Each time you push the 'S' button, the LED light will change to the next colour; the next channel.

More information on the AXIWI communication system can be found here.
